ZOOLOGICAL EXCURSION

Zoological excursion is aimed at acquiring knowledge in their own habitat, their life cycle, pattern, their behaviour and their interaction. As students not only gain knowledge about the habitat and its area in case of our trip but also to have a glance of the diversity of the animal fauna each in its own niche and a greater area of habitat and in the ecosystem play its important roles.

The zoological excursion is not only a pleasure trip for us but a learning experience for a student of zoology. It is also an exciting and memorable memory for us.

EXAMINED

IMPORTANCE OF ZOOLOGICAL EXCURSION

"It was a director of education showed reduce the time taken by lecture to one third of that time taken at present and make attendance in the field compulsory three hours a day."

- C. G. Robertson

"The bookworm" may have plenty of theoretical knowledge, but all are incomplete and worthless as they lack of the powers of application.

Therefore field study is arranged which may be concluded on the education with out excursion.

PLACE OF JOURNEY

- Mandarmani and its surroundings.
- Talsari.
- Digha Mohona.

DATE OF JOURNEY

19.12.22 - 20.12.22

Fig:- Asterias sp.

MANDARMONI

We went to Mandarmoni at 9 a.m. on 19.12.22. It is located on the shore of the Bay of Bengal. This beach is 13 Km long. Mandarmoni sea beach surround by red corals and Jelly fish, shellfish, squids and tiny sea fisher.

METHODOLOGY:-

During sample collections and observations type of the substrate, abundance, habit and habitats of individual species were noted. Specimens were preserved in 10% Alcohol or in 10% formalin after proper narcotization and attempts were made to identify all the collected specimens upto species level whenever possible.

Survey Report :-

NO	Scientific Name	Local Name	Phylum
1	<u>Aurelia</u> sp.	Jelly fish	Cnidaria
2	<u>Asterias</u> sp.	Starfish/sea star	Echinodermata

separation of specimen.

TALSARI BEACH

We went to Talsari beach at 3.00pm, is consititue apert of the allunium coast the subarnarekha Delta plain located at northeastern side of Balasore district of Odisha and hardly 10-15 Km away from Digha. Geographically co. ordination of Talsari is bounded in between 21°35'45" Northern latitude and wild beach. The estuary of the river subarnarekha is 0.5 Km to 1.5 Km wide. Several types of Marine habitats are found in this small area different types of founal composition are found here in zonation.

METHODOLOGY:

During sample collection and observations type of substrate, abundance, habitat and habitats of individual species were noted. Specimens were preserved in 10% alcohol after proper narcotization and attempts were made to identify all the collected specimens upto species level whenever possible.

SURVEY REPORT:-

NO	Scientific Name	Local Name	phylum
1.	<u>Aurelia</u> sp.	common Jelly fish	Cnidaria
2.	<u>Asterias</u> sp.	seastar/star fish	Echinodermata
3.	<u>Metridium</u> sp.	sea anemone	Cnidaria

DIGHA MOHONA

We went to Digha Mohona at morning time. Mohona means estuary in Bengali. Digha Mohona is located very close to Digha beach. Actually it is one end of the Digha beach. Along the fish market there are stalls selling dry fish (shutki) and various types of fish like as vetki, Bombay duck, Fel, sting ray, shark, squid, cattle fish, octopus, ilish, crab, shrimp.

METHODOLOGY :-

During sample collections and observations type of the substrate, abundance, habit and habitats of individual species were noted. Specimens were preserved in 10% Alcohol and the collected specimens up to species level whenever possible.

HAPPY RETURNS

The tour was extremely faithful joyous one. Such type of educational tour always boost us to gain plenty of knowledge with practical views. The tour was certainly blessed a tool to serve the varied species containing "Digha Mohona and Mandanmani and Talsani". It was unique experience. We all returned with hearts although, acquiring a diversified knowledge admixture with holy minute education from marine habitat.

We are all grateful to our respected teachers without whose kind guidance, and help the tour would not have been made possible.
