Report on Dengue Awareness Workshop

The NSS Unit of the college organized a session on dengue awareness on 05 March 2020, in Room no. 16 from 2 p.m. to 3 p.m. The programme was attended by all students and staff, both teaching and non-teaching and some residents of Amdabad.

The first speaker was Prof. Moyazem Hossain Mondal, Assistant Professor of History. In his talk, Prof. Hossain Mondal made us aware of the ways in which dengue is transmitted, and precautions and preventive measures that we can take against the spread of the disease. A powerpoint presentation highlighting the main points was shown to the audience.

The next speaker was Mr. Binoy Kumar Gayen, Clerk. Mr Gayen made us aware of the things we can each do on an everyday basis in our own small way to prevent the spread of dengue. If we can make it a habit to keep our surroundings, we will automatically inspire others around us to follow suit. Little by little, it will be possible to make a big difference in fighting the disease effectively.

The last speaker on the theme was Mr. Subrata Bera, Head Clerk. Mr Bera made us aware of the fact that the only resource we need to spend in preventing dengue is our time. We must first decide to devote some of our time for the benefit of our community, be proactive in spreading awareness about the issue, and soon enough we will make an impact. A total of 65 participants including students, staff and local villagers were present the programme.

Outcome:

- I. Participants gained a better understanding of dengue fever, its symptoms, transmission methods, and preventive measures.
- II. Attendees learnt specific actions they can take to reduce the risk of dengue, such as eliminating stagnant water sources where mosquitoes breed.
