Subject: Request for Collaboration to Organize an AIDS Awareness Programme.

Dear Sir/Madam,

I am writing to you on behalf of the National Service Scheme (NSS) unit of Swarnamoyee Jogendranath Mahavidyalaya to request Reyapara Rural Hospital's collaboration in organizing an AIDS awareness programme on 01.12.2022 at our college campus.

As part of our commitment to social responsibility and community welfare, the NSS unit of Swarnamoyee Jogendranath Mahavidyalaya is planning a comprehensive awareness campaign to educate students and staff and residents of Amdabad Madhyapally about AIDS, its prevention, and management. Given the significant impact of AIDS on public health, we believe that enhancing awareness among young people is crucial in combating the spread of this disease.

We would be honored to partner with Reyapara Rural Hospital to leverage your expertise and resources for this important initiative. Your collaboration in this initiative would not only significantly enhance the impact of our awareness campaign but also contribute to fostering a well-informed and health-conscious community.

Thank you for considering our request. We look forward to the possibility of partnering with Reyapara Rural Hospital for this noble cause.

Thanking you,

Yours sincerely,

## Report of AIDS Awareness Programme

The NSS Unit-1 an of Swarnamoyee Jogendranath Mahavidyalaya organized an awareness programme for World AIDS Day on 01 December 2022 at 1 P.M in Room no. 16. The programme started with a welcome address by the NSS Officer, Mr Parimal Mandal. Prof. Mandal introduced the theme to the gathering, dwelling on the magnitude the AIDS pandemic has assumed and the need for increasing general awareness so that the problem may be combatted effectively. Subsequently, several other speakers spoke on various issues related to AIDS. The last speaker was the chief guest Sandeepan Mishra, a doctor from Reyapara Rural Hospital. He gave his speech in detail about how AIDS spreads, how to prevent it, how AIDS patients can stay healthy for a long time and how society should treat AIDS patients. He also advised to contact the hospital directly without panicking about it. A total of 62 students including NSS volunteers, and staff, along with a few villagers participated in this programme.

Outcome of this programme:

- I) Participants gained a clear understanding of what HIV and AIDS are, the difference between them, and how the virus affects the body.
- II) Enhanced knowledge about how HIV is transmitted and effective ways to prevent it, such as safe sex practices, needle exchange programs, and the importance of blood screening.
- III) Awareness about the availability and importance of regular HIV testing, and the understanding that early detection leads to better treatment outcomes.
- IV) Programs can help reduce the stigma associated with HIV/AIDS by dispelling myths and promoting empathy and support for people living with HIV.
