No. of students registered for the course: 25

No. of students completed the course: 25

Classes held during the course: (30 hrs.)

No. of recourse person delivered their lecture: 10

Course outcome: We get the below outcomes from this course:

The entire session focused on the basics of Education for sustainable development. Participants are now able to define sustainability and identify major sustainability challenges, and understand the carrying capacity of ecosystems as related to providing for human needs. They are now also able to apply the concepts of sustainable development to address sustainability challenges in a global context. The students can identify, act on and evaluate their professional and personal actions with the knowledge and appreciation of interconnections among economic, environmental and social perspectives.
