## Report of Lecture cum awareness program on Waste Management and Sustainable Development

Lecture cum awareness program on Waste Management and Sustainable Development held on March 23, 2023, was an insightful event aimed at addressing the crucial issues of waste management and its impact on sustainable development. The lecture was graced by the presence of Principal Ratan Kumar Samanta and featured eminent speakers Prof. Aparesh Mondal and Moyazzem Hossain Mondal. The seminar began with a welcome address by Principal Ratan Kumar Samanta, who emphasized the importance of waste management in achieving sustainable development goals. He highlighted the role of educational institutions in spreading awareness and fostering practices that contribute to environmental sustainability.

Prof. Aparesh Mondal, delivered a comprehensive presentation on the current state of waste management practices. He discussed various types of waste, including solid, liquid, and hazardous waste, and their impact on the environment. Prof. Mondal also elaborated on modern techniques and technologies used in waste management, such as recycling, composting, and waste-to-energy conversion. Prof. Moyazzem Hossain Mondal focused on the intersection of waste management and sustainable development. He emphasized the need for an integrated approach that not only manages waste effectively but also promotes the sustainable use of resources. After lecture programme Q&A discussion session organized. The seminar concluded with a vote of thanks by Principal Ratan Kumar Samanta, who expressed gratitude to the speakers for their valuable insights and to the participants for their active engagement. A total of 62 students along with NSS volunteers, staff and local residents participated in this programme.

### Outcomes:

- I) Participants gained a deeper understanding of the significance of waste management and its impact on sustainable development.
  - II) Through interactive sessions and workshops, participants learned practical techniques for managing waste effectively.
  - III) The event fostered a sense of responsibility among participants towards their environment, encouraging them to implement sustainable practices in their communities.
- Several participants expressed their intention to initiate waste management projects in their localities, schools, and workplaces.
