## Report of Aranya Saptah Celebration

A plantation programme was held in 16<sup>th</sup> July, 2019 at 11 am in Swarnamoyee Jogendranath Mahavidyalaya by the NSS unit-1 and Students' Welfare Committee, in collaboration with Department of Geography. The programme was divided into two parts. The first part was a lecture programme on afforestation, and the second part was a plantation around college premises. The programme was started by the lecture of NSS Officer Parimal Mandal. He gave a brief speech on what the duty of students is on plantations. Then Mr. Aparesh Mondal and Mr. Moyazzem Hossain Mondal gave their valuable lectures on how afforestation is a crucial tool for environmental protection and sustainable development. By planting more trees, we can combat climate change, prevent soil erosion, and promote biodiversity. After the end of the lecture programme NSS programme officer Parimal Mandal and 55 NSS volunteers along with students joined the plantation programme adjacent area of our college. The programme was completed after an hour of planting various types of plants. Through the lecture, students and present others become aware of the importance of trees and green spaces in mitigating climate change, improving air quality, and preserving biodiversity. Involving students in a plantation program adjacent area to the college fosters a sense of community involvement and responsibility towards the environment.
