Internal Complaints Committee

Report on Special Lecture Programme held online 10 June 2022

A special lecture for sensitization, under the awareness programme *Against Sexual Harassment*, was organized by the Department of English in collaboration with the Internal Complaints Committee and the Internal Quality Assurance Cell on 10.06.2022. Dr Bhaswati Chakravorty, Advisor, *The Telegraph*, was invited as a speaker to deliver the lecture online on Googlemeet. During the run-up to the event, the *Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013* was circulated electronically as preparatory reading amongst staff and students via official WhatsApp groups. Dr Chakravorty dwelled on various aspects of the Act in detail during her lecture, and edified the audience further with her answers to questions asked.

The feedback received via Googleform from students who attended the lecture, and also evident from their comments during the programme, indicated an impressive level of awareness about the issue of sexual harassment among students, and the extent to which the lecture seems to have sensitized them. The event seems to have resonated with the student community, evident from the fact that there were **100 attendees (full capacity) in the Googlemeet meeting for over the two hours that the event lasted, so that some had to watch on the YouTube livestream.** Of the 109 responses to the feedback Googleform circulated after the event, 90.8% were from students, and 9.2% from teachers. **98.2%** of responses recognize the issue of sexual harassment as 'very important,' and 0% as 'not important.' The lecture was livestreamed on YouTube. *Samay evam Samvad,* a local webzine, covered the event.

<u>Abstract</u>

Concept note on Vasudhaiva Kutumbakam: Socio-spiritual-Dr. Anil Pratap Giri Department of Sanskrit Pali Prakrit and Oriental Languages, University Of Allahabad, Prayagraj, UP Communism deals with economic equality in society. Socialism deals with economic and regional communism deals with economic equality in society. Coolarism deals with economic and re equality in society. Still, both ideologies could not be materialized to fulfill their goals in the Indian

context due to the lack of spiritual content in their doctrines. Vasudhaiva Kutumbakam can be treated as replacing the abovementioned ideologies entitled "Sociospiritual-harmonism" that can bridge the gap between horizontal and vortical imbalanced of all the areas of the society and make the society prosperous and happy with materialistic and spiritual development. Twenty first century is called the post-modern era. Modernity has created enormous environmental, ecological, and ethical challenges despite tremendous progress in science and technology and economic growth. To solve all the challenges in modernity: issues were divided into two parts: central issues, and the other is marginal issues. Major issues of modernity were an abstraction, futurity, individualism, liberation, secularization, foundationalism, adjorities and an abstraction, futurity, individualism, liberation, secularization, for a security of the securit foundationalism, scientific rationality, ideology, freedom infamy etc. Marginal issues were irrationality, plurality, deception, demon, sin, murder, sexuality, madness, hospitals, fantasy, illusions, corruption, crimes, etc., but these marginal issues were not solved in modernity due to egocentric methodology of implementation of theories of policies. Therefore, modernity created a Loss of Harmony (preestablished harmony included) / Fraternity at the Individual, Social and Cosmic levels; There was a clash among European nations themselves, resulting in two World Wars, over three decades of Cold War 1950 to 1980, the collapse of Socialism in Central and Eastern Europe, fall of the Berlin Wall during the late 1980s and early 1990s of the last millennium, global warming and ozone degradation, etc. Many Intellectuals and distinguished scientists have stated that this will be the last century for humanity unless we shift our ideology and paradigm of development and progress. There is an urgent need to change our world view through the harmony of man, machine, and nature. That Demand of time has invented the idea of post-modernity. 'The whole idea of post-modernity is better rethought under the intuition of rewriting of modernity. It is post-enlightenment, post-liberal, post discourse, post-Marxist and postglobalization cognitions which reflect in Increasing incredulity towards meta-narratives, new forms of societal rationalism, new information technologies, the emergence of new social movements in this post-modern era. Indian Knowledge System

plays a vital role, which is widely accepted that the cognitions of future development are rooted in the Vedic perspective (Indian Knowledge System) that sees the whole world as only family and reveals the oneness of the whole universe. Vasudhaiva Kutumbakam is accepted as the central theory of ultimate science in post-modernism. In this context, I would like to explore an ultimate theory of science essential for sustainable development, worldwide peace, social harmony, and happiness in the light of postmodernity. The research paper deals with four primary inherent objectives too.1 To build a global forum for deeper scientific interactions in the Vedic knowledge system with Modern Sciences.2- To promote interdisciplinary research, the technology comprising interfaces in the Vedic and Allied Sciences with Modern Sciences as holistic and integrative solutions.3-To establish a network of individuals and institutions working in Oriental and Modern Sciences to share knowledge and resources.4- To integrate the Vedic and modern perspectives, leading to a new understanding for achieving sustainable development goals. EVOLUTION OF VASUDHAIVA KUŢUMBAKAM IN LITERARY TRADITION

Dr. Sudip Chakravortti Assistant Professor Department of Sanskrit, Sidho-Kanho-Birsha University, Purulia, WB

One minor Upanișad of Sămaveda tradition namely - Mahā Upanișad firstly anoounces that: "अयं

बन्धुरयं नेति गणना लघुचेतसाम् |. उदारचरितानां तु वसुधैव कुटुम्बकम् ॥" (VI-72). The distinction like this person is mine, and this one is not - is made only by the narrow-minded or ignorant people who believe person is mine, and this one is not to made only by the name of some of ignorant people who believe in duality. Noble knowledgeable persons or who know the Supreme Truth conduct and accept the whole the whole the some limit or as own relatives. The meaning of words like the thread of the in duality. Noble knowledgeable persons or who know the cuprents of duri conduct and accept the whole world as one family or one Unit or as own relatives. The meaning of words like 'kutumba' should be unality of what the Upanisad is talking about it is describing the quality of the understood in the context of what the Upanisad is talking about. It is describing the quality of men who

understand the Real Truth, transcending the multiplicity of the world. The Upanishad mantra is not a geo-politico-socio-cultural statement. It is a matter of fact. Hiopadesa also speaks of approximately the same thing: "**J** \vec{u} **f** \vec{n} **: u** \vec{t} **i** \vec{d} **f** \vec{n} **urifi eq t** \vec{t} **i**

It implies that - The diversity in India is unique. It is the land of many languages and people who profess all the major religions of the world. India is a land of diversity in race, region, caste, language, landform, flora and fauna and so on. The statement is not just about peace and harmony among the societies in the world, but also about a truth that the whole world has to live like a family. While preparing our food, we forget that main source of food does not come from the supermarket but from a star of 150 million kilometers away which gives light and energy to plants which feed us and the animals too. Whether we like it or not, whether aware of it or not, we are the part of a fragile ecosystem we are all survival, a part of ourselves. It is not possible to harm another human being or any other life form without harming a small part of ourselves.

This comes through sahabhāva only and the concept of this sahabhāva i.e. peace and harmony abounds in the Literature, Music and other 64 skilled artistic creations. Therefore Bhupen Hazrika nicely sings:

মোরা যাত্রী একই তরণীর, সহযাত্রী একই তরণীর যদি সংঘাত হয় তবে ধ্বংস হবে গর্ব মোদের প্রগতির ।।

প্রভু চোথ মেলে চাও দেখ ম্বর্গ হতে, ও মহাপ্রভু, কী শুন্য সাগর,

এই তরী পৃথিবীর সারা মানবজাতির, তাই ঈশ্বর গড়ে দিন মিলনের নৌকো চোথ কারও কালে কারও নীল কারও পিঙ্গল, তাই তো দেখি তোমার আমার একই আকাশ একই ধরণী। "We're in the same boat, brother We're in the same boat, brother And if you shake one end You're gonna rock the other

Oh, the Lord looked down from his holy place Said. "Lordy me, what a sea of space What a spot to launch the human race" So he built him a boat for a mixed up crew With eyes of black and brown and blue So that's how come that you and I Got just one world with just one sky"
