ZOOLOGICAL EXCURSION

Zoological excursion is aimed at acquiring knowledge in their own habitat, their life cycle, pattern, their behaviour and their interaction. As students not only gain knowledge about the habitat and its area in case of our trip but also to have a glance of the diversity of the animal fauna each in its own niche and a greater areas of habitat and in the ecosystem play its important roles.

The zoological excursion is not only a pleasure trip for us but a learning experience for a student of zoology. It is also an exciting and memorable memory for us.

EXAMINED

HAPPY RETURNS

The tour was extremely faithful joyous one. Such type of educational tour always boost us to gain plenty of knowledge with practical views. The tour was certainly blessed a tool to serve the varied species containing "Digha Mohona and Mandanmani and Talsani". It was unique experience. We all returned with hearts although, acquiring a diversified knowledge admixture with holy minute education from marine habitat.

We are all grateful to our respected teachers without whose kind guidance, and help the tour would not have been made possible.
