# ZOOLOGICAL EXCURSION

Zoological excursion is aimed acquiring knowledge in their own habitat, their life cycle pattern, their behaviours and their interaction. A student not only gain knowledge about the habitat <sup>Magazine area</sup> in case of our trip but also to have a glance of the diversity of the animal fauna each in its own niche and a greater areas of habitat and in the ecosystem play its important roles.

Thus zoological excursion is not only a pleasure trip for us but a learning experience for a student of zoology. It is also a exciting and memorable memory for us.

# IMPORTANCE OF ZOOLOGICAL EXCURSION

"It was a director of education should reduce the time taken by lecture to one third of that time taken at present and make attendance in the field three hours a day"

C. G. Robertson.

"The book worm" may have plenty of theoretical knowledge, but all are incomplete and worthless as they lack of the power of application. There is no field study in arranged which may be concluded on the Education without excursion.

# HAPPY RETURNES

The tour was extremely fruitful Joyous on such type of educational tour always boost us to gain plenty of knowledge with practical views. The tour was certainly blessed a tool to serve the varied species containing "Digha Mohona and Mandarmoni and Talsani". It was unigue experiance we all returned with hearts although, acqumming a diversified knowledge admixture with holy minute education from marine habitat.

We are all grateful to our respected teachers without whose kind guidance and help the tour would not have been made possible.

T. Das
