EXAMINED

# ZOOLOGICAL EXCURSION

Zoological excursion is aimed at acquiring knowledge in their own habitat, their life-cycle pattern, their behaviour and their interaction. A student not only gains knowledge about the habitat i.e.

Marine area in case of our trip but also to have a glance of the diversity of the animal fauna each in its own niche and a greater area of habitat and in the ecosystem play its important roles.

Thus zoological excursion is not only a pleasure trip for us but a learning experience for a student of zoology. It is also an exciting and memorable memory for us.

# HAPPY RETURNS

The tour was extremely fruitful joy-  
-es one, such type of educational tour alw-  
-ays boost us to gain plenty of knowledge  
with practical views. The tour was certainly  
blessed a toll to serve the varied species  
containing "Digha Mohana" and. Mandar  
mani and Talsari" It was unique experi-  
ance. We all returned with hearts altho-  
ugh, acquiring a diversified knowledge  
admixture with holy minute education  
for marine habitat.

We are all grateful to our  
respected teachers without whose kind  
guidance and help the tour would not  
have been made possible.
